# **Sonny's** Complete Point-of-Sale & Back-Office Management System

NCLUDES EVERYTH

Aqua Blue

/// CLEARANCE 7'-2"

## Easy

Our POS system was designed from the ground up with an intuitive simple-to-use interface, enabling you and your team to focus on managing your business.

## Secure

Stay secure with the only Linux Point-of-Sale system in the car wash industry, making you less vulnerable to internal and external security threats.

# Complete

Engineered with state-of-the-art technologies, Sonny's POS and Back-Office Management System comes with everything you need to increase revenue, manage operations and cut costs across all of your locations.

Item #	Description	Price
20015750	Sonny's POS System	\$9,995.00*

\*Price includes complete POS System with automatic software updates and cloud backup. Requires \$349 monthly service fee.

## Features

#### **Unlimited Plans**

Flexibility to sell, redeem and manage unlimited plans at all your sites. Monitor your actual costs, customize the redemption and frequency limits to match your business model.

#### Flexible Point-of-Sale System

Whether you have a Full-Serve, Flex-Serve or an Express wash, we have all the features you need to operate your wash.

#### **Real-time Reporting**

Compare daily, monthly, and/or annual site metrics with simple, at-a-glance reports. Plus, with automatic email and text reporting, you'll have the information you need to make quick operational decisions on the fly, saving you time and money. Access all Back-Office features right from your phone or tablet.

#### **Operations Management**

Manage employees, labor costs, maintenance requirements and monitor incident claims to reveal trends that allow you to operate more efficiently and profitably.

DRIVE

FORWARD

#### **Intuitive Interface**

All interfaces – from our Back-Office management portal to our POS touchscreen – are designed to reduce the time it takes to perform any action.

#### E-Commerce & Account Management

Start selling your unlimited plans, wash books and gift cards online within a matter of seconds. Give your customers the convenience to completely manage their own plans from their computer or phone.

#### Share Customers

Access customer data, redeem recurring plans, wash books and gift cards from all sites or limit to specific sites.

# **True Multi-Site**

#### Share Employees

Freely allocate employees across sites and manage their time sheets at a global or site-specific level.

#### Share Promotions

Quickly create custom promotions and allow the redemptions at all sites or limit to specific sites.

#### Truly Flexible Secure & Always Up-to-Date

- Linux-based OS for maximized security
- Instantly sync all site data to the cloud
- New software features added regularly

#### **Easy Maintenance & Support**

- Off-the-shelf, non-proprietary parts
- Device statuses for easy troubleshooting
- Remote access for immediate support

# Sonny's Pay Station™

# Simple

Sonny's Pay Station was designed with USB plug-andplay components, so if any hardware fails, replacements are quick and easy. With Sonny's Pay Station, there's no more worrying about motherboards, chips or wiring.

# Customizable

Sonny's Pay Station includes custom powder-coating and decals to match your brand. Each unit ships with a custom programmed interactive menu to welcome customers and quickly guide them through an intuitive interface to promote your top wash packages and increase your average ticket.

# Comprehensive

Sonny's Pay Station does it all. Quickly process cash or credit transactions, sell or redeem unlimited memberships, process house accounts, dispense gift cards and more. All bundled in a stainless steel enclosure designed to protect your investment.

Join Sonny's OneWash

#### **USB Plug & Play Compatibility**

If a component fails, unplug the malfunctioning item and plug in the new one – no need for complicated wiring of board replacements.

#### **Device Monitoring**

Status of all devices on the POS to streamline troubleshooting and know if something needs to be repaired or replenished.

#### **Scheduled Promotions**

Automatically change the Pay Station price for time-based promos, redeem discounts and issue event promos.

### **Features**

#### **Unlimited Plans**

Quickly sell, redeem, and renew unlimited plans directly from the pay station. Plus, with License Plate Recognition (LPR) or Radio Frequency Identification (RFID), customers can access your wash quickly and easily through express lanes, minimizing your customer wait time.

#### **Process House/Fleet Accounts**

Sonny's Pay Station allows corporate customers to seamlessly receive discounts, redeem specific washes and make purchases with RFID tags and cards.

# Simplify Your Unlimited Plan With Sonny's LPR™

## **Features**

#### **Unlimited Plans**

Customers can access your wash quickly and easily through express lanes, minimizing your customer wait time without the expense and hassle of managing RFID tags.

#### **E-Commerce Integration**

Let your customers sign up, manage their plan online, enter their plate and instantly redeem on-site without interacting with an attendant.

## **Visit Tracking**

Ever wonder how often customers come back to your site? Now you can see how often your non-member customers visit the site and how much they spend.

#### **Marketing like Never before**

Now that you know how often your "mystery" customers come, you can market to them at the Pay Station based on visits to join your unlimited plan.

55in Display Menu also available with security doors

# Sonny's Digital Menu

## 1. It's a better way to upsell

Engaging videos are delivered on a vibrant screen with expertly-crafted motion graphics designed to upsell your top packages and additional services. Manager's specials, discounts, and other promotions can be displayed without overcrowding or otherwise distracting from the menu.

# 2. It's effortless

All digital menu content is fully managed by Sonny's Controls team, eliminating the need to host a server onsite. Make as many updates as you wish – across as many sites as you need – and watch your menus change in real time. Schedule all of your promotions, have your menu change during happy hours, holidays, special occasions and automatically switch back based on time and date.

# 3. It's durable and reliable

Sonny's digital menu is engineered to be waterproof (IP56 rated) and perform in extreme conditions from -22°F to 122°F. The display is protected by 5mm impact and vandal-resistant glass. In the unlikely event that the display malfunctions, our standard & included 5-year white glove warranty offers next day service and on-site replacement – 7 days per week.

## **High Visibility**

Get perfect visibility day or night with an auto-brightness sensor that adjusts from 200 nit to 3,000 nit with reflection-cancelling polarized sunglass support.

#### **Highly Durable**

Engineered to perform in extreme conditions, Sonny's digital menu is impact-resistant and has true IP56 waterproofing to ensure higher levels of ingress defense.

## **Digital Design**

Our team creates highly effective, captivating digital menu experiences – let us create one for you that incorporates your brand, style, and drives sales.

## **5-Year White Glove Warranty**

Your digital menu is highly durable, but if there is a malfunction, simply call the Samsung toll-free hotline and a technician will arrive within one day.

Next Day Service*	On-site Replacement	7-days a Week

# \*Next day exchange where available excludes holidays and service call must be placed by 6 p.m local time. Up to 3 exchanges of the display per term of 5 year contract.

# The Tunnel Experts™

# CarWash Controls Controllers

# **Sonny's** PLC Tunnel Controller

# Accessible

The Sonny's cloud-based Tunnel Controller can be accessed anytime, anywhere, from an internet connected device, giving you the flexibility to make adjustments to the configuration and timing while at the car wash or offsite. With Sonny's Tunnel Controller you gain real-time insight into unpaid washes triggered by the photoeyes or tunnel entry keypad.

# Configurable

Step-by-step guidance allows you to quickly and accurately configure up to 170 functions and 64 inputs. Program anything from mirror bumps to scheduling the activation of irrigation systems. And since Sonny's PLC Tunnel Controller is cloud-based, you can manage all of your tunnel locations from one simple interface on any device.

# Reliable

Programmable Logic Controllers (PLCs) have been used for years in industrial automation. They are designed to be accurate, maintain uptime and operate in harsh environments. Sonny's Tunnel Controller utilizes top-of-the-line hardware from leading PLC and industrial automation manufacturers to ensure optimal reliability.

### **Features**

#### **DRIVE** BUSINESS FORWARD

#### **Entry Keypad Configuration**

Simple online drag-and-drop button editor allows you to quickly and easily configure all the buttons needed on the keypad. Password protect buttons you don't want employees to access.

#### **Queue Management**

Easily manage your queue from the Entry Keypad. You can add, remove and reorder vehicles. If a vehicle needs to step out of line, place them on hold and reinsert into the queue when ready.

#### **Multi-Site Tunnel Management**

Manage and configure all of your tunnel locations online – all from one single interface that communicates with each individual site.

#### **Built-in\* Truck Bed Retract**

Automatically identify both open and covered truck beds, retracting assigned tunnel equipment to protect your customer, your property and save on chemical and water usage.

## **Function Configuration**

Configure standard, special and signage functions. Program up to 170 functions, turn equipment on at various points of a vehicle and schedule functions to activate on selected days and times.

#### **Input Alarming**

Trigger alarms based on activating an input to keep you aware of any equipment failures or fluid levels. Automatically stop the conveyor for any critical alarms. All displayed on the Entry Keypad.

#### **Built-in\* Gate Controller**

Seamlessly control the flow of your site to ensure that cars clear your gates and stay in sequence.

#### **Built-in\* Conveyor Speed Controller**

Counts cars as they're being processed, comparing real numbers to your pre-set conveyor speed, and automatically increase throughput based on your site's ability to process demand.

\*Built-in options are pre-installed at the factory prior to shipment.

# The Tunnel Experts\*\*

# CarWash Controls Controllers

# **Sonny's** Stand-Alone PLC Functional Controllers

Built into Sonny's PLC Tunnel Controller, this stand alone Sonny's Conveyor Speed Auto Controller can be added to any tunnel to count cars as they're being processed, compares that to a preset conveyor speed, and increases or decreases throughput based on the location's ability to process demand. As volume increases, conveyor speed increases incrementally to a preset limit. As volume decreases, conveyor speed decreases proportionately at pre-determined levels to maximize wash quality. This advanced PLC controller replicates the adjustments that an experienced car wash operator would make during the day to balance throughput, wash quality, and resource consumption automatically.

- Excellent for managing throughput and maintaining a consistent quality product with any tunnel configuration
- You can pre-set up to 6 different conveyor speeds i.e. 60, 80, 100, 130, 150, 200 CPH. Or run at a fixed conveyor speed in manual mode
- Always returns conveyor to optimal speed to maximize your quality and customer satisfaction

ltem #	Description	Price
20010900	AP Conveyor Concierge, 10HP, 208~230VAC	\$3,748.13
20011335	AP Conveyor Concierge, 10HP, 380~460VAC	\$3,748.13

# Sonny's Stand-Alone: Gate Controller

Built into Sonny's PLC Tunnel Controller, this stand-alone Sonny's Gate Controller automatically controls multiple gates at sites where automated pay stations are used. Sonny's Gate Controller manages the flow of vehicles in order to avoid accidents as well as ensuring that the tunnel controller's queue stays in order. The unit can control up to 3 gates and has a built-in provision for a merge loop. Sonny's Gate Controller offers peace of mind to express and flex car wash operators who have multiple gated lanes on site.

- Configurable options: Gate specific settings
- On-time to open the gate
- Delay for wash in use signal
- Global settings:
- Time out for vehicles to reach the merge loop
- De-bounce for all wash inputs
- Compatible with all wash in use signal types (active/passive)
- Time out to close gate

- Automatically queue cars in order
- Controls up to 3 gates
- Gate status LED display
- UL listed
- Built-in alarm display functionality for troubleshooting purposes
- Provisions for a merge loop
- Graphic User Interface to override outputs in manual mode and monitor input status

 Sonny's Gate Controller
 \$2,806.27

# Sonny's Stand-Alone: Truck Bed Retract Controller

Built into Sonny's PLC Tunnel Controller, this stand-alone Sonny's Truck Bed Concierge can be added to any tunnel to eliminate the need for a human attendant to retract equipment and is available with standard interface programming for WashPilot, DRB Systems, and ICS controllers. The system uses a sonar sensor with 16 programmable relays that work independently from the tunnel controller to identify both open and covered truck beds. Necessary retracts occur automatically while customers receive the best possible wash. Capable of automatically retracting top brushes, turning off applicators, and activating dryer Gator Gates<sup>™</sup> over open truck beds, Truck Bed Concierge saves chemistry, energy, and improves your customer's experience in the tunnel.

- Allows you to process trucks unattended or serves as a backup to your attendant
- Sonar profiling of vehicle detects open truck beds
- Retracts Top Brush and Buff-n-Dry
- Stops foaming applicators from filling open truck beds
- Saves energy by turning off blowers over open truck beds
- Truck Bed Concierge can control up to 16 functions
- Multi-color touch screen for easy programming

ltem #	Description	Price
20013256	Sonny's Truck Bed Retract, 8 Outputs	\$4,741.46
20013257	Sonny's Truck Bed Retract, 16 Outputs	\$6,389.73
20013258	Sonny's Truck Bed Retract, 8 Out, Extens	\$2,217.00

## The Tunnel Experts<sup>™</sup>

# CarWash Controls Controllers

#### **Features**

- Customer approaches gated pay station lane, transaction is processed and gate opens
- Customer is signaled to move forward onto the conveyor
- Customer is stopped at a second gate to prevent them from driving through the wash
- Customer reads the safety instruction sign, pushes the "start" button, the gate opens and the roller is fired, pushing or
- pulling the vehicle through the tunnel

# **Sonny's** Self-Loading Technology

Self-Loading tunnels are becoming more popular with each year. Sonny's Self-Loading Entry System offers peace of mind to the unattended, selfloading car wash owner & operator who wishes to deliver a quality wash without having an attendant loading the vehicle on the conveyor.

# Sonny's POS: Fuel Pump Integration

Sonny's POS fuel pump integration seamlessly communicates with gas station POS systems in order to issue one-time use codes either at the pump or in the store.

With Sonny's Car Wash Controls, you can sell with ease from a pay station, inside the gas station, and now at the pump. The back office mobile web platform will track and report on all codes, keeping your fingers on the pulse of your wash anytime, anywhere. Utilizing industry standard protocols, Sonny's POS can also communicate with most major gas station POS systems.

What's more, Sonny's POS multi-site structure makes it easy for customers to purchase a wash at one off-site station and redeem it later at a different location.

Item #	Description	Price
20017786	Sonny's Fuel Integration	\$3,135.00
20017787	Sonny's Remote Fuel Integration	\$5,995.00

\*Price is per location. Standard fuel integration requires \$25 monthly service fee. Remote fuel integration requires \$99 monthly service fee.
